

About Lucidity Cloud Services

We have been successfully operating in New Zealand and Australia since 2003 when our founders, Paul O'Brien and Jarred Hogan, saw relevance in what was to become the next platform for IT solutions - cloud-based computing.

Lucidity has gone from strength to strength, from its humble beginnings; to one of New Zealand's largest independent Microsoft aligned cloud hosting companies in Managed IT Services, Cloud Infrastructure as a Service and Cloud Consultancy Services.

We are proud to have been awarded Managed Service Provider of the Year at the 2015 and 2017 Microsoft New Zealand Partner Awards.

We Are Lucidity. The values we live by:

- We attribute our success to:
 - wise investment in automation, technology and clever people, as well as a focus on building long term trusted customer relationships.
 - providing trusted cloud solutions that are easy to implement and consume.
 - providing a clear direction and a safe path for customers wanting to benefit from cloud-based IT services. The result is measurable productivity gains and cost reductions that our customers are able to bank.
- At Lucidity, we are proud of the work we do for our customers and the great team we have.
- We typically work with small and medium New Zealand businesses with between 20 and 400 employees, although all our services are fully scalable.
- Over 6000 users across a range of industry sectors including distribution, legal, accounting, travel and healthcare are benefiting from the simplicity, scalability and flexibility of our cloud services.
- In our last client survey, 97% of respondents said they are satisfied or very satisfied with our services. We take great pride in our high customer retention rate.
- Our case studies are a testament to the benefits that our clients are enjoying.
